Introduction To Mitsu Chem Plast Limited: A Leading Player In Plastic Manufacturing

Since its inception in 1990, Mitsu Chem Plast Limited has grown to become a leading name in India's plastic-processing sector. The company specializes in both blow-molded and injection-molded products, operating multiple state-of-the-art facilities capable of delivering everything from standard components to fully customized solutions.

Sustainability remains central to Mitsu Chem Plast's operations. Its dedicated R&D team continuously pursues the development of eco-friendly materials and processes, in alignment with rigorous environmental, social, and governance (ESG) criteria. The company also actively supports the Make in India initiative, reinforcing its commitment to domestic manufacturing and local value creation.

Today, Mitsu Chem Plast Limited is widely acknowledged for its technical expertise, production capacity, and forward-looking approach to innovation and responsible business practices, making it a preferred partner for clients seeking high-quality plastic solutions.

A significant milestone was reached in September 2016, when Mitsu Chem Plast was listed on the SME Platform of BSE Ltd.; this was followed by a successful migration to the BSE Main Board in May 2020.

Mission

To challenge ourselves continuously to innovate and create value for people associated with us beyond their expectations and become one of the finest global company.

Green Initiatives

CO2 Emission

Reduce Carbon Footprint (CO2 Emission) by initiative to reduction in energy consumption, diesel consumption, etc.

Water Conservation and Management

Reduce Carbon Footprint (CO2 Emission) by initiative to reduction in energy consumption, diesel consumption, etc.

Waste Reduction & Recycling

During Molding process, tons of pinch-off/ inhouse rejection generates which gets reuse in a process by grinding it.

Natural Resources

Mitsu uses transparent Polycarbonate sheets for roofing in working place for letting natural light and increase day lights in plant. Also diesel additives are used to save diesel consumption of our tempos.

The Company recognizes the need to transform and adapt to changes around it for a better and sustainable tomorrow. With increased focus to go green, we at Mitsu Chem Plast are striving to choose sustainable means, offering environment-friendly products to their consumers as much as they can.

Mitsu Chem Plast Ltd and Rotary Club of Navi Mumbai Join Hands for a Blood Donation

Mitsu's employees, as well as members of the surrounding community came to contribute for this noble cause. The turnout was impressive, with 284 donors stepping forward to donate blood.

Green Commitment: ARJO Team's Plant Visit at Mitsu

Mitsu hosted a memorable customer visit, with the ARJO team at Khalapur Plant. The ARJO team was joined by Mitsu's directors, Mr. Jagdish Dedhia & Mr. Sanjay Dedhia, emphasizing sustainability with a special Sapling Plantation activity, aligning with shared vision for progress.

Creating Safe Spaces: POSH Training at Mitsu

Mitsu prioritizes a safe workplace with recent POSH training, reinforcing commitment to inclusivity, respect, and empowerment. Ongoing education aims to cultivate a culture of dignity and mutual respect, ensuring a harassment-free workplace.

Together for Sustainability

Mitsu Chem Plast Limited has once again been honored with a bronze medal certification for noteworthy contributions and proactive initiatives within the Together For Sustainability (TFS) framework Sustainability) 2023.

Power Optimization

We use LED lights, servo motors, controllers, sensors, automatic ventilator systems, variable frequency drives, transparent poly carbonate roof tops.

Post Consume Resin (PCR) Facility

PCR (Post-Consumer Resin) is recycled plastic that has undergone the recycling process and is available to use again. PCR material / product testing and validation inhouse lab facility is available .

Tree plantation: Save tree save environment

Save Trees, Save Environment – Mitsu continued its dedication towards sustainability by carrying out tree plantation on Environment Day in June 2025

Envirocare Green Award

Mitsu Chem Plast Limited has been conferred with the Special Citation in the Public Sector/ Large Corporates category at the Envirocare Green Awards 2024 for their exemplary efforts in energy conservation, carbon emission reduction, sustainable practices, waste management, and green initiatives.

On Job Safety Training Unit 1 & 2 (June 2026)

Conducted comprehensive training sessions on Electricity Safety and Fire Hydrant Mock Drills to reinforce a safe and prepared workplace.

On Job Safety Training Unit 3 (June 2026)

Conducted comprehensive training sessions on Electricity Safety and Fire Hydrant Mock Drills to reinforce a safe and prepared workplace.

National Safety Week (March, 2026)

Hands-on training, live demonstrations, and mock drills across all sites to strengthen emergency response, and workplace preparedness.

Impact

These initiatives continue to build a culture of accountability, readiness, and safety excellence, ensuring the well-being of employees and the surrounding community.

On Job Safety Training Unit 1 & 2 (November 2025)

Focused on enhancing workplace safety and operational discipline through modules on: PPE and Its Importance.

On Job safety training Unit 3 (October 2025)

Tool box talk briefing, PPE its importance board with instruction in local language provided for use of PPE & PPE matrix displayed at shop floor in local language for reminder.

Impact

These initiatives continue to build a culture of accountability, readiness, and safety excellence, ensuring the well-being of employees and the surrounding community.

Targets and Goals in future

Energy and Carbon

- 2% reduction in carbon intensity and overall emissions.
- 2% reduction in energy intensity.

Water

- 2% reduction in water intensity.

Safety and Occupational Health

- Maintain zero fatality.
- 7% reduction in LTIFR.
- 100% compliance with medical exams.
- Near miss reporting as a leading indicator as one per person per year.

Targets achieved till now

Carbon intensity (scope 1 and 2 emissions) decreased by 6.90% in 2025-26. This performance was driven by energy reduction measures taken during the year.

Energy intensity decreased by 8.95% in 2025-26.

Rainwater harvesting structures were used for the collection & usage of rainwater as an alternative source replacing freshwater withdrawn from surface & ground sources.

Water intensity reduced by 11.03% in 2025-26.

Zero fatalities in 2025-26.

Our LTIFR for employees is zero and our LTIFR for workers has decreased by 11.41%

100% compliance with initial medical examination and periodic medical examinations.

Green Achievements 2025-26 & Targets Ahead

Above Figures are in crore of turnover (GJ/ ₹ Cr)

The demand for molded plastics is projected to increase significantly due to the extensive expansion and development in the Construction, Automotive, And Packaging Sectors.

The Indian plastic processing industry comprises approximately 30,000 units that use injection molding, blow molding, extrusion, and calendaring to create a wide range of products.

The plastics industry is currently home to about 50,000 industries, most of which are micro, small, and medium-sized enterprises (MSMEs).

These enterprises contribute Rs. 3.5 lakh crore (US\$ 42.89 billion) to India's economy and employ more than 50,000 people.

The country recycles plastic at a rate of 60%, which is higher than that of developed nations.

The "Make in India," "Skill India," "Swachh Bharat," and "Digital India" initiatives of the government are increasing plastic production, and by 2027, it is expected that the plastics industry will generate Rs. 10 lakh billion (US\$ 122.54 billion) annual revenue, with two lakh tonnes of exports.

“According to India Plastics Pact's (IPP) Roadmap to 2030, the target is to eliminate all unnecessary plastic waste and items, and make 100% of plastic packaging reusable, recyclable or compostable by the year 2030. The starting point is to establish a list of plastic packaging products that are unneeded or troublesome and take action to solve them through redesign and innovation. New technology and higher-quality plastic will also help India progress towards this goal.”

Blow Molded Plastics

- The Indian blow molded plastics market is expected to experience a significant growth rate.
- It is projected to grow at a CAGR of 6.19%, reaching ₹49,96,01,840.82 Lakhs.
- In terms of volume, it is anticipated to grow at a CAGR of 4.12%, reaching 5,929.682 Kilo Tons in 2030.

Injection Molded Plastics

- The India injection molded plastics market is expected to witness robust growth.
- By value, it is projected to grow at a CAGR of 6.98%, reaching ₹3,28,44,099.59 Lakhs in 2030.
- In terms of volume, it is anticipated to grow at a CAGR of 3.40%, reaching 14,148.509 Kilo Tons in 2030.

Saudi Arabia - A Transformation Under Vision 2030

- **Massive Investment:** Over \$65 billion earmarked to revamp healthcare infrastructure.
- **Strategic Initiatives:** Launching 21 health clusters; targeted privatization of 290 hospitals and 2,300 primary health centers.
- **Modernization Drive:** Expansion of e-health services and a shift from 40% to 65% private sector participation, creating a strong demand for modern hospital facilities and furniture.

UAE - Emerging Regional Hub for Healthcare Innovation

- **Healthcare Ambition:** Focus on transforming the UAE into a regional medical tourism and innovation hub.
- **World-Class Facilities:** Expansion of healthcare infrastructure supported by institutions like Cleveland Clinic and Mayo Clinic.
- **Modernization Needs:** Rapid development to serve an 11+ million population underlines the importance of high-quality, contemporary hospital furniture.

Europe - Steady Growth Amid Demographic Shifts

- **Demographic Dynamics:** Aging population combined with low fertility and migration increases demand for healthcare.
- **Revenue Stability:** Hospital revenues forecast to grow at a 2.2% CAGR, ensuring continuous investment in facility upgrades.
- **Market Opportunity:** The need for innovative, patient-centric environments boosts demand for state-of-the-art hospital furniture.

USA - Dynamic Market with Evolving Care Models

- **Innovation & Consolidation:** A vast and evolving industry marked by hospital mergers, partnerships, and a shift towards outpatient care.
- **Patient-Centric Trends:** Increasing demand for quality care with state-of-the-art technology and personalized services drives facility upgrades.
- **Competitive Environment:** Pressure to reduce costs while enhancing care quality prompts hospitals to invest in modern, efficient infrastructure including advanced furniture solutions.

Competitive Strengths

- Out Of The Box Thinking
- In House R&D Department
- Value Creation By Reverse Engineering
- Conceptualization To Final Product
- Continuous Innovation
- Strong At Design & Prototyping
- Consultative Approach
- Quality First
- Capability To Handle **PP, PE, HDPE, Nylon & ABS**

Investment Rationale

- **Market Leadership:** specialist in India with state-of-the-art facilities
- **Strong Growth Trajectory:** Revenue grown from ₹100 Cr (2015) to ₹332.28 Cr (2025)
- **Rapidly Growing Exports:** Export revenues Rs. 335.41 Lakhs in FY26; present in 17 countries
- **Resilient Client Base:** Serving pharma, agrochemicals, FMCG, food, healthcare & more
- **Four Pillars of Transformation:** Furnastra (Healthcare Furniture), Enhanced Packaging, Operational Excellence, Data-Driven
- **ESG Leadership:** ISO 14001 & 45001 certified; targeting 20% carbon reduction, Envirocare Green Award 2024
